CMA CGM S.A. and CMA CGM (UK) Limited (hereinafter referred to as "CMA CGM")

13215 Marseilles Cedex 02
France

Compagnie Maritime Marfret S.A. (hereinafter referred to as "Marfret")

Address: 13 Quai de la Joliette

France

ARTICLE 4: GEOGRAPHIC SCOPE

This Agreement covers the trades between ports on the U.S. Atlantic Coast, on the one hand, and ports in the Caribbean (with the exception of the French West Indies) and Central America, North Coast of South America and ports in North Europe, the South Pacific Islands, and Australia and New Zealand, on the other hand. All of the foregoing is hereinafter referred to as the "Trade."

ARTICLE 5: AGREEMENT AUTHORITY

5.1 Vessels. The Parties are authorized to discuss and agree upon the number, size and characteristics of vessels to be deployed hereunder, and to operate a service of up to fifteen (15) vessels with a nominal capacity of about 3,000 TEUs each. Pursuant to and without limitation of the foregoing, the Parties hereby agree as follows:

(a) As of the effective date of Amendment No. 4, the Parties shall operate thirteen (13) vessels with a nominal capacity of between 2000-2500 TEUs each. CMA CGM will provide eleven (11) vessels, and Marfret will provide two (2) vessels.

(b) All vessels deployed hereunder will be geared and have a minimum intake of 1650 TEUs at 14T homogeneous and a maximum intake of 1950 TEUs at 14T homogeneous. Vessels will be required to perform a service speed of 18 knots. All vessels will be capable of supplying 320 reefer plugs, but the Parties acknowledge that as a result of differing configuration of vessels, it may be necessary to agree on specific 20ft/40ft ratios on a case by case basis.

(c) Each Party shall be responsible for the operation of the vessels that it provides for the service hereunder, and shall pay all associated vessel costs, such as, but not limited to, daily charter hire, port costs, Panama Canal charges, bunkers and insurance.

(d) A Party shall have the right to replace and/or substitute vessels throughout the life of the Agreement, providing the substitute ship meets the minimum specifications set out in Article 5.1(b) and provided that all additional vessel and cargo expenses are for the account of the Party substituting the vessel. The Parties may mutually agree to waive the minimum specification rule from time to time if suitable replacement vessels cannot be found and where not having a replacement vessel would be detrimental to the overall service product integrity.

(e) Each Party shall be at liberty to withdraw its vessels from service for routine maintenance and repairs including dry-dock, with reasonable provision of notice to the other Parties of at least 90 days. In such cases, the vessel providing Party must pay due regard to schedule requirements and take into account the requirements of the other Party. The vessel providing Party must either provide alternative slot capacity to the other Parties and/or additional capacity on subsequent voyages, or accept reasonable incremental cargo associated costs of the other Parties (as defined by the Parties). The Party whose vessel is so withdrawn from service shall also be responsible for reasonable related schedule rectification costs.

5.2 Service and Schedule.

(a) The Parties agree to maintain a reliable fixed day weekly frequency of service in accordance with a schedule to be agreed. The Parties are authorized to discuss and agree upon criteria to measure adherence to the agreed-upon schedule and remedial actions/consequences in the event of non-adherence. Marfret agrees that CMA will assume responsibility for the schedule coordination of this Service.

(b) Following commencement of the service, the Parties agree to undertake a periodic operational review in order to assess the schedule integrity of the service, and to make adjustments to the schedule if necessary. It is acknowledged that such adjustments could ultimately involve amongst other solutions, removal of a port, or ports of call, if absolutely necessary, in order to attain schedule reliability. Such action shall only be taken after all other possible alternative remedial actions have been fully explored to the satisfaction of all Parties. Conversely, provided that schedule integrity is sufficiently robust, consideration shall also be given as to the practicality of adding a port, or ports of call, if so suggested by any of the Parties.

5.3 Space Allocation.

(a) Slot and deadweight allocation on each southbound and northbound sailing shall be shared between the Parties in proportion to the aggregate agreed capacity that each Party provides within each cycle of thirteen consecutive sailings. The foregoing principle may be waived by the Parties agreeing to do so in writing.

(b) One cycle will be defined as 13 consecutive weekly sailings and the slots provided within any given cycle will determine a Party's slot entitlement within that cycle, unless otherwise specifically agreed.

(c) The average weight per slot will be assessed at:

- 12 tons per TEU Southbound (from Europe via USEC to SPI/ANZ)
- 15 tons per TEU Northbound (from ANZ via USEC to Europe)

The Parties will agree the slot capacity of each vessel upon the basis of the above average deadweight per TEU.

(d) Any Party may agree to sell any portion of its allocation to another Party at a pre-agreed slot rate. Any sale of slots to a non-Party is not permitted without the written consent of the other Parties. Notwithstanding the preceding sentence, any Party may make space available to any affiliated or wholly owned subsidiaries and shall not require the consent of the other Parties to do so.

(e) In the event that the deadweight capacity of a ship is reduced as a result of draft limitations at ports or canals as well as temporary reductions in draft caused by unforeseen events, then the allocation of deadweight to each

DN

Party loading on that voyage leg shall be reduced proportionately to the overall reduction in deadweight. Any change in allocation made pursuant this Article 5.3(e) will be effected at a port, or phased over a range of ports, as agreed by the Parties.

(f) Reefer plugs on each sailing shall be allocated among the Parties in accordance with the principle set forth in Article 5.3(a). A reefer plug premium will be established for excess reefer plug usage used on the other Party's vessels. For avoidance of doubt the Vessel Providing Party will not pay the other Party a reefer premium for excess plugs utilized on its own vessels.

5.4 Terminals.

(a) Except in the French Pacific Islands where the Party providing the vessel will select the stevedore of its choice, the Parties agree to contract with a single terminal operator in each port, unless it is agreed otherwise. Ocean terminals will be selected on the following criteria:

- (i) High gross productivity in comparison to competing ports
- (ii) Competitive cost
- (iii) Berthing guarantee
- (iv) Parties' hubbing requirements

Providing that most of the above criteria are satisfied, preference will be given to terminals owned by any Party either wholly or partially through shareholdings.

(b) A Terminal Committee will be established.

(c) Each Party shall pay all stevedoring and terminal expenses attributable to its cargo and will be responsible for its agent's remuneration (husbanding).

DW

(d) Common terminal charges (such as, but not restricted to overtime, idle time, waiting time, extra labor if any, any expenses resulting from schedule adjustment due to Force Majeure cases) will be invoiced to each Party proportionally to its share of the total throughput in each port if identifiable, otherwise in accordance with allocation shares.

(e) All restows, including hatchcover moves, will be for the account of the vessel operator, except those attributable to the specific request of the other Party, unless otherwise agreed.

5.5 Operational and Administrative Matters

The Parties are authorized to discuss and agree on routine matters such as cargo claims and other liabilities, indemnifications, general average, a cross charter party, joint working procedures, standards for containers and for the acceptance of breakbulk, oversized and dangerous cargo, and other operational/administrative issues to implement the terms hereof.

5.6 Further Agreements

Pursuant to 46 C.F.R. §535.408(b), any further agreement between the Parties, other than those concerning routine operational and administrative matters, will not be implemented unless such agreement has been filed and become effective under the Shipping Act of 1984, as amended.

ARTICLE 6: ADMINISTRATION AND DELEGATIONS OF AUTHORITY

9.4 Notwithstanding Article 9.2, if at any time during the term of this Agreement there shall be a change in the ownership or ultimate control of a Party, or an agreement has been entered into for such a change of ownership or ultimate control, and the other Parties are of the opinion arrived at in good faith

For purposes of this Article 9.4, a change in the control or material
